---

## Technical Skills

- **Languages:** Java, JavaScript, SQL, HTML5, CSS3, Python.
  - **Frameworks / Libraries:** React JS, Spring MVC, Hibernate, Servlets.
  - **Databases:** MySQL, Oracle.
  - **Developer Tools:** Git, GitHub, Visual Studio, Eclipse IDE, Spring Initializer.
  - **Web/Operating System:** Windows, Linux.
  - **Technical Proficiencies:** Data Structure and Algorithms, Object-Oriented Programming, Database Management System.
  - **Soft Skills:** Leadership, Problem-Solving, Collaborative.
- 

## Work Experience

### Tata Consultancy Services

Software Developer (Assistant System Engineer )

Pune, Maharashtra

Apr 2025–Current

### Tata Consultancy Services

Software Developer (Assistant System Engineer )- Trainee

Pune, Maharashtra

Feb 2025–Apr 2025

### Numetry Technology

Full Stack Software Developer Intern

Remote

Jan 2024–Jul 2024

---

## Education

### Bachelor of Engineering in Information Technology

Sandip Institute of Technology and Research Center.

Nashik, Maharashtra

Dec 2021 – June 2024

- Final [CGPA: 8.56](#)

### Diploma in Computer Technology

NDMVPS's RSM Polytechnic Nashik

Nashik, Maharashtra

Aug 2018 – Sep 2021

- Final [Percentage: 91.03%](#)

### Secondary School Certificate (SSC)

KBH Highschool Girnare

Nashik, Maharashtra

March 2017 – June 2018

- Final [Percentage: 79.20%](#)
- 

## Projects

### Find Your Favourite Movie

( [GitHub](#) ) ( [Live](#) )

**Technologies Used:** React, React Router, Context API, TMDb API, JavaScript, HTML, CSS

- Developed a React-based web application that allows users to search for movies, view popular movies, and manage their favorites list.
- Developed a React-based web application utilizing React Router for client-side routing and React Context API for global state management of user favorites.
- Integrated with the TMDb API to fetch and display movie data, implementing asynchronous data fetching with `useEffect` and `useState` hooks.
- Designed a responsive UI using CSS and handled dynamic movie search with real-time updates.
- Implemented `localStorage` persistence for saving user favorites and error/loading handling for API requests, ensuring a seamless user experience.

### Best Hotel Booking

( [GitHub](#) ) ( [Live](#) )

**Technologies Used:** React, React Router, React Icons, JavaScript, CSS

- A dynamic hotel booking web application built with React, featuring hotel listings, interactive filters, and detailed hotel pages for a seamless user experience.
- Integrated React Router for dynamic routing to individual hotel pages, enabling seamless navigation and a user-friendly experience.
- Implemented a filter bar with a price range slider and category filters, allowing users to search for hotels based on various criteria.
- Utilized React Hooks (`useState`) for managing component state, ensuring efficient and predictable UI behavior.
- Leveraged React Icons to enhance the UI by incorporating interactive and visually appealing icons, improving the overall user experience.

Visualytics - Data Insights and Visualization

( [GitHub](#) ) ( [Live](#) )

Technologies Used: Python, Streamlit, LIDA, GPT 3.5

- Developed Visualytics, a web app for data insights using Python and Streamlit, featuring an intuitive user interface
- Implemented the LIDA module to perform advanced data analysis and generate interactive visualizations, enabling users to derive meaningful insights from complex datasets.
- Integrated GPT-3.5 for natural language processing, enabling users to query data and receive contextual insights.
- Utilized various data visualization techniques, including graphs and charts, to effectively communicate findings and facilitate user understanding.

Courses and Certifications

• Java Full Stack Training	<a href="#">Certificate</a>	Jun 2024–Mar 2025
• Cleared “TCS iON NQT (Aug 2024)” with an overall score of 74.03%.	<a href="#">Certificate</a>	Aug 2024
• Completed Python AI-ML Training at Centra-Logic Pune	<a href="#">Certificate</a>	May 2024-June 2024
• Full Stack Java Course – TNS India Foundation.	<a href="#">Certificate</a>	Feb 2024—May 2024
• AWS certification in ‘Cloud Practitioner Essentials’.	<a href="#">Certificate</a>	Jan- 2024
• Hackathon Participant, “SUNHACKS-2022” an international-level hackathon.	<a href="#">Certificate</a>	Nov 2022

Achievement & awards

- As the project leader for our graduation final project, I led a team of 4 members, working in collaboration to successfully execute the project.
- Recognized as the Best Outgoing Student of the Department in the final year of graduation for outstanding academic performance and contributions.
